Vice-President's Report

Henry Choo Chong

Thus far, this summer has been fantastic. The weather has co-operated and the season is in full swing. Much of DTC's success goes to our members and executive committee that have supported DTC with positive enthusiasm and volunteerism. People that care is what sets DTC apart from other tennis clubs.

To continue as the number 1 tennis club in Toronto we have endeavoured to bring aboard the best court stewards and manager any tennis club could want on their team. Between your serves and volleys say hi to our club Manager Charles and court stewards Zach, Shelley, Antek and Phillip.

I look forward to having a full report to all our members at our AGM in September that I am currently arranging.

Regards,

Henry Choo Chong

Preparation Between Points

By Club Pro Chris Field

First-class tennis players always take advantage of the moments between points. Take time to plan a strategy for your next service return or serve. Strategy is not only intelligent and interesting; it provides an excellent mental exercise and positive thinking. Consistent consideration of what it will take to win the next point keeps your mind off that last bad call, sarcastic comment, missed forehand, or your fear of losing.

Plan your attack to stay on track.

To book a private, semi-private, or group lesson with Chris, call him at 416-826-4906 or email clubpro@davisvilletennisclub.com
